Working Systemically ~ handling complexity with simplicity

As a Leader, Coach/Therapist/Supervisor, are you searching for something to take your professional efficacy to the next level?

Have you discovered that some professional leadership, coach/ therapy models are too simplistic for the complex challenges you, your clients and colleagues are facing?

Do you have a sense that something is eluding you?

©The Potent 6 Constellation is grounded in and sits at the interface between complexity and psycho-social sciences. It has emerged from 30 years of leadership, coaching, facilitation and supervision praxis.

This is for leaders, facilitators, coach/ therapist practitioners and supervisors who recognise the limits of traditional coaching, therapeutic and leadership models - and who are searching for something capable of handling the complexity inherent in the challenges people face.

It is an elegant yet profound model for working with complexity, simply. Our design enables you to more effectively support others as they move through very different levels and stages of awareness and meaning-making; and in ways that inherently grow their emotional, personal and professional mastery. In learning to hold yourself and others in an ever deeper inquiry, you will see what you have not seen before; and in so discovering, will be able to free-up more and more transformative potential energy – for yourself, your colleagues and your clients - to navigate through complex challenges and to make lasting transformational change.

Facilitating an inquiry using ©The Potent 6 Constellation opens up everyone (facilitator and client/colleague) to more potent, sometimes surprising options for action - a vital dimension in growing one's adaptive capacity and efficacy.

©The Potent 6 Constellation can be used solo as a personal reflective and reflexive methodology; 1-2-1 with clients and colleagues and also in groups to navigate more complex team and organisational challenges. We have different packages to suit your needs and preferences (solo, pairs, groups): Pocket-Pal™, Table-Top™ and Rug-wraps™

...Come ready to be shaken and stirred

...Leave equipped, feeling awakened, excited and inspired
