

## Entry Level for the Potent 6 Constellation

### Challenging times?

- ✿ Are you and your clients facing greater complexity and less certainty?
- ✿ Are you an experienced practitioner looking to draw from complexity sciences to expand your practice?
- ✿ Have you heard people talking about complexity science and theory and are you wondering how this might relate to and inform your practice?

If you answer 'yes' to any of these ... then this might be for you.

### What is the Potent 6 Constellation and who is it for?

The Potent 6 Constellation is a radical addition to the resources of qualified counsellors and psychotherapists, supervisors and coaches, including organisational development specialists, facilitators and leaders wanting to expand their ability to support clients in navigating through complex, uncertain times.

It simultaneously complements and extends practitioners' understanding and efficacy of what they already know and do, enriching their presence, confidence and ability to adjust and respond to however their clients show up and whatever they bring. To learn about The Potent 6 Constellation, which can be used in solo, paired, team and organisational contexts, you will first need to attend this 1-day Entry Level training which is endorsed by BACP.

### Benefits

The Entry Level day will set you on a path towards

- **working systemically** choicefully
- enhancing your **fluency** and
- liberating your **artistry** as a practitioner

### What to expect

This day covers theory and principles of complex adaptive systems and illustrates how these show up and inform what happens within and between individuals. You will be introduced to new and different ways of seeing and understanding the patterns and dynamics at play in the human systems in which you find yourself.

Expect to leave with some simple models, methods and metaphors for understanding human system dynamics that can be applied immediately in your practice. We will briefly touch on The Potent 6 Constellation demonstrating its

# EMBRACING COMPLEXITY IN COACHING AND THERAPEUTIC RELATIONSHIPS

## Entry Level for the Potent 6 Constellation

systemic nature, to illustrate how it is substantively different from most other coaching models and approaches. By the end of the day, you will know if the deep dive, 3-day training in using the Potent 6 Constellation is for you.

### Now what

If you are intrigued and ready, the next step after 'Embracing Complexity' is the [Systemic Coaching](#) workshop for The Potent 6 Constellation. In this we set the conditions for integrating and expanding individual and shared learning and practice. Participants will come to recognise the complementary, embracing nature of the model - how it validates current knowledge and skills; and how it has the potential to inform, enhance and deepen capacity to work more powerfully and systemically in a multitude of settings. Follow the links to find out more about Practitioner training

## EDINBURGH TRAINING DATES
